

## Assignment #2

Due: Wednesday, January 12, 2011

Reproduce the document appearing on the back of this page (handed out in class). I want your name where [Your name here] is, but everything else should be identical. Make a `.pdf` file and send it to me through the Sakai Drop Box.

Math 233 Assignment  
January 11, 2011

This **paragraph** is in the middle of a minipage environment which is *only* 3 inches wide. Can you believe it? Some highlighting in this document is done with the color magenta.

How, oh how will I produce this box?

You may be able to tell that this document has a 0.8-inch left margin and a 1.5-inch right margin. There is 9.2 vertical ~~centimeters~~ inches of text. Also, this paragraph has **1.3 line spacing**.

A 2-inch paragraph that is in a box is very cute, don't you think? Some people might argue, but not me. There is 1 inch below this box.

Can you tell the difference between *italicized text* and *slanted text*? You can certainly see the difference in the letter "a."<sup>1</sup> Spacing is a funny thing. It looks nice in some places, with two centimeters right here. But it looks `really weird` in other places.

The last thing we need to cover is this 1.75-inch magenta box. It is centered, obviously, but it also has a frame around it. Can you figure out how we did that? The text is slightly bigger here ...

The end

of the road.

---

<sup>1</sup>Well, can you see it or not?
